Hongkong, July 8th, 1893.

country, offers an exceptionally favourable and be so much the more independent field for a comparison between the relative of any ill-advised currency legislation on values of the precious metals and commodi. which Mexico may conceivably enter. ties. The result of the inquiry, as conducted Thirteen years ago the Hongkong Chamber by Mr. WETMORE, of Shanghai, goes to show of Commerce recommended, practically unthat as measured in silver commodities in animously, that the Japanese yen should be general have not advanced in price. As mea- declared legal tender in the colony, and at The conclusion is, that silver has remained be given to that recommendation. stationary in value while gold has appreciated. Mr. TAYLOR, of Hongkong, has thrown some doubt on Mr. WETMORE's argument, pointing to an advance in the price of grain! as the main factor to be considered, the Singapore on Thursday for this port. other articles given in Mr. WETMORE's table being, according to this authority, of minor left San Francisco for this port, via Honolula ing at Keng Chek, received here three days ago, totally consumed. The firing is very easy, too fine it will be safe to say that if there has been so inconsiderable that prices may be safe ly spoken of as having remained practically stable. But if China offers an excellent field for a comparison of the values of the precious metals as compared with those of commodities a silver producing country like Mexico offers an even better one. And in the declaration of the Mexican delegates at the International Monetary Conference was stated, without qualification, that in that country values had not perceptibly changed. At the same time the export trade has been greatly stimulated. At the Nagasaki, Kobe, Inland Sea, Yokobama, and time of the demonstisation of silver Germany and the closing of the mints of

results the delegates said they had reason sent production is \$40,000,000 a year, would disuppear from the European market. But if eilver remains in Mexico in larger quantities than it has hitherto done, productive employment must perforce be found for it, and the delegates point to the commencement of manufacturing industries, and predict that the production of their own manufactures will cause a proportional minution in the consumption of European manufactures and will in time end b completely superseding them. Further on in morning, 3rd inst. The all ex Mogal was detheir declaration the delegates say :-- "We are sure, then, that if our silver must desert the European markets we can utilise it otherwise, though to reach that goal we must endure some years of inconvenience and trouble, which are inevitable in the radical change of a long standing and 'advantageous state of things. We shall bave for many years the further use o our dollars in the markets of Asia, where for many years they will continue to be ' preferred to all other money," and they intimate that the speedy completion of the inter-oceanic railway across the isthmus of Tehuantepeo will enable them to send the

It is difficult, in view of the above considerations, to see what Mexico could possibly gain by stopping the coinage of silver. To do so would be to put a break on the expansion For Coast Ports, Waters are packed and of her export trade, and her silver buillion year, have now, the N. C. Daily News says, been fear of any revolutionary policy being adopted with regard to the Mexican dollar, which Counterfoil Order Books supplied free on ap- has so long served as the principal currency of the Far East, may therefore be regarded and the Princess May. The Banks and most of by socialists, several of whom have been killed as rather remote. Nevertheless, the more mention of the report elegraphed by Reuter should bring home to our minds the insecurity a royal salute was fired at one o'clock. of the basis on which our local currency rests. We do not know what course Mexico may ultimately take and it is intolerable currency we should be absolutely at the mercy of a foreign state. A British dollar is the desideratum. As a dollar cannot be minted for nothing, however, such a culation so long as Moxico chooses to than the cost of the work involved. The cost of the mintage of Mexican dollars falls in the first instance mainly on the importer fire which recently occurred at Nos. 191 and 195, of European goods into that country, Hollywood Road. His Worship allowed Mr. but ultimately on the consumers of the Gedge, who represented the Meiji Insurance No Credit given for Bottles that look dirty or goods, the prices of which are necesgreasy, or that appear to have been used for any sarily enhanced to cover this charge. The were recalled. The enquiry was further adother purpose than that of containing Aerated revenues of Mexico are largely derived Waters, as such Bottles are never used again from the seignorage on the dollars, and a heavy prohibitory duty is imposed on the export of bar silver. Silver being the Infantry will play at Mount Austin Hotel durprincipal export, the importers of European ing dinner and afterwards in the Hotel grounds. goods have to take payment in dollars, which | A special late tram will run at 12 midnight. Prothey transmit to London and sell for what. Overture..... they will fetch, which is sometimes as low as the price of bar silver and always below the intrinsic value plus cost of mintage. The consequence is that Hongkong, Singapore, and the Far East generally, are supplied with a coin the cost of minting which is borne by the people of Mexico, and while this is the case local merchants would naturally not think of paying the mintage fee for a British dollar. Thus it was that the Hongrecommended the Government to grant a lease telegram later in the day stating that the numclined to pay for but I have arrouged with him costs are given to the successful party in a suit. | singular, with here and there short lateral shoots

Grand Stand was considered. The President said the matter had been re- ditors. ferred to the Surveyor, who saw no objection to the application being granted on certain conditions being complied with. He (the President) proposed that the application be granted received \$20,000. Can you tell us how you have Subject to the conditions mentioned by the disposed of that? The COLONIAL SURGEON asked if the closets

were for general use. The PRESIDENT-They are for the use of the members of the Jockey Club. The COLONIAL SURGEONSpoke of the necessity of improved sanitary arrangements in connection with the ladies' room.

The President said the Grand Stand was the roperty of the Jookey Club, and the Beard ould only deal with the matter mentioned by he Colonial Surgeon if they had an application before them in reference to it.

The application at present before the Board

The PRESIDENT stated that two onses of smallx had occurred, one in Third Street and one the Sailors' Home. The usual measures for disinfection had been carried out. This closed the business of the meeting.

THE MARINBURK FURNITURE COM. PANY, LIMITED (IN LIQUI-DATION.)

A meeting of shareholders in this Company H. Hancock, was hold vesterday afternoon at the Rongkong Hotel. Mr. Hancock presided, and there were also present Mr. Ellis (on behalf of He proposed that they should take the liquida-Mr. Hancock), Mr. Recce (on behalf of Mr. J. Marinburk), Messra J. J. Francis, Q.C. C. Grant, A. Kuhn (representing Mr. M. M. Kuhn, Yokohama), F. Rapp, J. Marinburk, R. Fuhrmann, J. A. de Carvalho, F. H. Hohnke, and J.

The CHAIRMAN said he did not know whether ill those present were shareholders; if they were not shareholders, he would like the opinion of the meeting as to whether they should remain. Mr. REECE-I appear on behalf of Mr. Marin.

Mr. A. KUHN-I appear on behalf of Mr. Ruhn, whose power of attorney I hold. A SHAREHOLDER-I presume he is here at your request? The CHAIRMAN-Mr. Kubu is not here at my request, but I have no objection to his presonce.

Mr. KUHN-If you have any objection I am willing to go. The CHAIBMAN-I have no objection. Gentlemen, it may be in your recollection that the liquidaion of this Company was entrusted to me on the 14th August, 1891, at a meeting held that day. I called a meeting of the shareholders on the 18th March, 1802, having previously circulated a report and statement of the affairs of the Com-

party, but at that meeting no quorum of shere. holders attended. I subsequently called a meeting of shareholders and creditors for the 28th July, but there being no quorum of shareholders no meeting was held, A full atlendance of creditors, however, was present and areport and at isment was submitted to them. At that meeting the areditors requested me to continue the liquidati. n in the manner hitherto done. In July, 1892. I arranged with the landlords of the factory and of the Queen's Road store to surrender the BEFORE HIS HONOUR MR. E. J. ACKROYD lases of these pramises, which I did on very favourable terms, viz., as to the J years' lease

of factory, for \$5,500, and to the two years' lease of store, for 1980. In January of this year I sold the machinery at the factory for \$10,000, and on the 15th April the same taken over and the money paid, when the tenancy of the factory ceased. ential claims against this Company amount ing to \$10,709 40 have been paid out of proceeds of sales of stock, chiefly wages, ren! and compensation for cancelling leases. reference to the item in the accounts relating Mr. J. Mr. FRANCIS objected to the form in which he statement of accounts was presented. The CHAIRMAN - I do not think I could have made it out in any other way. Mr. Francis Why are not the accounts made was dismissed. not in the same way as in July so that we can

account ought to have been sent to the shareholders before the meeting, and as it is we can make no comparison of the accounts. The CHAIRMAN-There are very good reasons for showing the accounts in this form. Several shareholders here spoke excitedly at he same time—a feature which indeed characterised the whole proceedings of the meeting. Mr. FRANCIS inquired of the Chairman if he

had got any statement of account presented at the last meeting. The CHAIRMAN-No. except my report of Mr. RAPP-Has saything been paid to th

creditors since July P The CHAIRMAN-\$10,700.

Mr. RAPP-I mean the bank and general cre-The CHAIRMAN-No. Mr. RAPP-According to your statement you received for machinery \$10,000; altogether you

The CHAIRMAN-I paid \$10,000 in preferential claims. Mr. FURRMANN-We want a statement of what you have received and expended. You are rendering a statement of the present position of

Mr. RAPP-You had in hand \$10,000, \$6,500 of which was paid to creditors. What has become of the \$3.500 F The CHAIRMAN - That is in the general account Mr. RAPP-Then you promised 20 to 25 cents

in the dollar. The CHAIRMAN-I nover promised anything Mr. FRANCIS-I beg to propose that the liqui-

dator be requested to render to us a complete account of his dealings with the Company's property since the date of this report in Warch, 1892. The CHAIRMAN-I shall be very pleased to ive an account of everything. Mr. MARINBURK addressed the meeting atsome length, referring to certain items in the accounts which he considered required explana-

tion, and charging Mr. Hancock with putting excessive prices on the stock—such as \$31 per yard for tapestry-and so preventing its 5th inst. a mut maker was sent to gaol for three sale. With regard to the alleged deficiency in months' imprisonment with bard labour and was personally concerned, he was able to prove | fore discharge, in evidence that there was no such deficiency tion out of Mr. Hancock's hands and hand it over to the Official Receiver. Only thus would they put an end to the liquidation.

The CHAIRMAN-With regard to what Mr Marinburk says about the priors of the stock he is altogether wrong. Mr. MARINBURK-I am not wrong. Mr. GRANT seconded Mr. Francis's motion.

The CHAIRMAN asked what sort of statemen the meeting be adjourned for a fortnight and Mr. Hancock be requested to submit an account of what had been done in the liquidation of the Company since March, 1892, a cush account detailing receipts and expenditure, and a working account of the business.

This motion was then put to the meeting and After some further discussion which had reference mainly to the matters which had already been discussed, the meeting separated.

At the conclusion of the meeting of share solders a meeting of oreditors was held, Mr Hancock presiding, when the same statement of counts and report were presented. The CHAIRMAN informed the meeting that dividend of 50 per cent, would be paid immediate

AFRICAN GOLD REEFS.

kept its secret and kept it well. Although small quantities of gold, mostly in the form of dust or nuggets, have been dribbling out of its interior over since the earliest times, white men with modern appliances have never had a chance to work its mines systematically. "Rushes" to supposedly rich fields in Cape Colony and brown, and black, but are composed mostly of in portions of the South African republic (the Transvasl) have taken place at intervals since the beginning of the present century, but until the year 1885 all of them proved to be of very little value. In that year, however, gold was found at a place in the south-eastern portion of "bankette," or almondatone reefs. Gold is of the Transvaal, and a town named Barberton was founded there. The mines were placers, or "alluvials," as they are termed in South Africa. A few people made money, but the mines as a rule turned out so poorly that the Transvasl Government under its very peculiar code of mining laws declared them a failure, dispossessed the miners, and gave the land back to its original

The ejected miners apread everywhere as prospectors and soon found, less than a mile distant. some very rich reef outcroppings. This was on the slopes of Shebs mountain, a curious bill with and to sink shafts through many hundred feet of three peaks. A fresh rush took place, this time for rock workings instead of alluvial diggings. The reefs proved rich, and Barberton rose to a population of over 4,000. It would have grown much more, but just then the Johannesburg have so for proved much richer at these mines were discovered and their surpassing rich- low levels than near the surface. Why this

Whoever they were, the white men are now their beirs.

The formation of the South African gold reefs

from the fact that never before has gold been ing the bride." It is illustrated in the following found in rocks of a similar nature. They are tale. Blisha Griswold of Simabury, a descendant not quartz, as are the Californian and Australian of old Windsor, used in his later years to relate reefs. In truth, they are not reefs at all, in the with much glee the particulars of one of usual acceptation of that word. They are merely these bride stealings in which he was a principal gandstone strate, originally horisontal, but now more or less approximating the vertical. As to were to be married in Simsbury, and Mr. Gristhe details of their formation many differences wold, with others of their acquaintance who of opinion exist, but the general lines are clear had not been bonoured with an invitation, re-Ages ago this gold-bearing district was under Accordingly, on the evening of the wedding, havwater. Whether there was a great lake or sea. or a chain of lakes, or merely great alluvial rivers, the present state of geological investigation will not permit us to say. On the beds of these lakes or rivers sedimentary rocks were extensively formed by the settling of the detritus waterahed. These sedimentary rocks were similar to watch for some time before the favo rable is described and did door me, though I thought for the most part to those found elsewhere. But, at one time or another, the detritus must have ever, the evening being warm and beautiful, the consisted principally of sand and pebbles company gradually withdrew from the house washed or worn away by the weather from

quartz reefs then existing somewhere in the vicinity. In time these beds of sand and pebbles became sandstone and conglomerates, and were distinguished by her bridal dress, almost alone covered hundreds of feet deep by ther bede of in the parlour. Now was their chance. One or aqueous formation. They seem also to have been two of the surprise party quietly entered the partially fused after being so covered. In the dwelling by a back door. To seize the bride and Southern Transvasi this fusion is so slight as to be barely perceptible; in Northern Mashonaland holding the horses and to place her behind one it has produced an almost bourgenrous mass of of the party on horseback was but the work of

toris and Manios fi lds on the south; and the Hartley bills and Masoe fields on the north. As necessarily follows from this theory formation the "strike" or direction of all outcrops is parallel to that of the granite belts, and than 80 degrees and often less than 45 degrees, increasing as the reefs go down. It is general hought that the latter become horizontal at death of about 1.500 feet. The owing rooks have the same dip and strike as the gold feels. The Johannesburg reefs are the most peculiar of all, differing little from ordinary sandatone or pudding stone. They are filled with pebbles rang-

og in size from a marble to a duck segg. These poblicante of all colours and shades of white, gray quarts. They are usually rounded, showing long action by water before being put into their present situation. Their matrix is simply sand. slightly fused. Bo compicuous are the publics that the Dutch have given these reefs the name found both in the pebbles and the matrix. Further north the components of the reefs boy, placidly. can only occasionally be distinguished.

Owing to the small dip of the reels a saries deep-level mines is now under way at Johannesburg. If the inclination of a reef is 60 degrees and a mining claim is only 400 feet wide, t is evident that the reef passes out of the perpendicular wells of the claim at a depth of about 450 feet. It has, therefore, been found worth while to locate another long series of claims along the reefs parallel to those on the outcrops worthless rock to reach them. Many of these have been prospected with the dismond drill, but only a few companies are taking out ore. For some as yet unexplained reason these reefs

ness drew away nearly all of Barberton's popu- is so cannot be explained by the usual formation theory, except as a mere assident. Noither will the theory explain why the exact ants, an immense number for so sparsely settled opposite obtains in Mashonsland, the reefs there a country as South Africa. At that time there being much richer on the surface than lower was no railway within 200 miles of it and the down. brought back wonderful accounts of the gold for it. Accordingly everything used in mining They were idiots who had broken, doubtless, through the able to work them. In 1889, however, a number farming implements used almost exclusively Idiots who'd escaped from Earlswood, having broken This also ! and nothing more.

But while I, half bent on flying, still within my mind was One man bloke the pause by saying that 'twas "cursed nonsense playing Staying mooning on the baserd while four lungs were Then he swere and said no more.

Now through all my mind came stealing quite a dine Ho, by way of explanation, I delivered an oration. Of a suite deduration, which I think hey thought a bore: And I said, " I'll watch your playing," but they muttered Cussed bore P²

Just these words and nothing more. Waiting by us bearing weapons-such a curious end-And I said. "You'H be agreeing that no earthly." Ever yet was blessed by seeing such queer things the were seen before."

" Clubs be they, and nothing wate-Thus spoke one they called a caddie, though he spoke And I said, whilst elewiy following, Tell their names I do implore l Then these words he seemed to atter in a most uncivil mutter. Driver, cleek, spoon, brassey, patter, till he reach-Muttering thus he still continued. till he reached at least a score,

Or may be a trifle more. Boon the boy, when some one halload, west sheed while stiff I followed. Wendering much to see how quickly be across tha Faster still he flew and faster to his most unhappy

to much deplore-Only this and nothing more. Here he cried, "Do try and be quick | don't you see I want my nibilok f Curse these deep and muddy places which one's belle will quite immure. Then the mud so fleros did hab he, that his garments And he called out for his mashle and he very loudly

Mashing, spleshing, did not aid him, nor did all the The ball cank in and nothing more. Whilst I was engaged in thinking how deep down the thing was sinking. Listening to the flow of language that from out his Suddenly he dived and sought it, and from out the Toused it to the boy who caught it, then he counted Sold if he at first h d too'd it, he'd have saved quite

Now he'd try the hole to more. So I thought the game was ended but their talk was With a language unfamiliar which I had not heard

It perplayed me more and more. and dispersed through the grounds and gardens Players," said I, "sure I'm dying just to send that that surrounded it. Let me show you how I'd make it up into the heavens And one answered, " Come and try it! we should like to see you sky it! Here's a c'ub, six bob will buy it, I have plonty at the store Twas the man who teaches golfing, and who kee clubs in a store,

Just himself and nothing more. Then the other, who was playing, said he Just to see me make a semething of a record of And with flattery they fed me, but the ball it would It just rolled and nothing more.

Ball." I said, "thou thing of evil wholem of a Shows the true self thou art covered o'er. Only black and nothing more!

Then with race I took the driver, smitting at

ing and permanent ours. It Cures Old Scres. Cures Bores on the Neck Cures Sore Legs.

Onres Blackhead or Pimples on the Face. Curea Scurvy. Cures Blood and Skin Diseases. Cures Guardular Swellings. Clears the Blood from all impure matter.

It removes the cames from the filood and Bonus. As this mirture is pleasant to the taste, and warranted free from a viding injurious to the most delicate constitution of either son, the Proprietors solicit sufferers to give it a trial to best its value. with which is incorporated with Jan. 12, 1892.

"I thought it was my duty to let you know what 'Charte's Blood Migure' has done for me.

After suffering for three years with absoraces on my arm and let, and the doctors not being able to do me any good. I has thankful to may, after taking a few bottles of your Charte's Blood Mixture.

The polish and French Mail, will be published The CLAREES BLOOD MIXTURE.

CAUTION—Ask for CLARKE'S SCOOD MIX-TURE and do not be principally to take an imitation. [4-790 KEATINGS POWDER."

Sweet and war of her again on the inner road

Of life base proved to be the part.

A year can put with he can where my lead

Larry and a few war again and a second to the cont

Heinetantly to be a few against the cont

Then heat from heat against the larry

Then passion's hour presents the first

What made of known presents the first

With spoted were any approved the first

All ore will enterty made and only

If faints the spirit, gives a dower
Of calm, revives the drooping soul again—
A wile's fond kins of sympathy But once, in our most frigid clime, Is given from stoic sire to manhood son That sacred kies, years' parting chime, And in a moment's breath, is done A father's love, in essency. They stood alone, from the madding throng,
That noblest mind displained to glare emotion.
His spirit struggled, strove, and wrong.
Its geven throne of circled devotion.
To spend their floods in secrecy.
CESTEIA.

Hongkong, 6th November, 1889 NOW ON SALE. IMPERIAL QUARTO. INGERTSHEAND CHENES DIC'1'IONARY. AWITH THE PUSTI AND MANUSBIN

PRONUNCIATION. in Anglo-Chinese Dictionary, published at the Daily Press. Office, Hongkong For comprehensiveness and practical corvice his Work stands unrivalled. All the new words which the Chinese have of later ears leed compelled to coin to express the numerous of jects in machinery, photography, telegraphy and in solence generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word i fully illustrated and explained, forming exercises for students of a most instructive nature. Bot the Court and Punti-pronunciations are given the accents being carefully marked on the best brinciple hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, schieving a clearness not proviously attained, and dispensing with those vast margins and vacant spaces which have herotofore characterized Chinese publications.

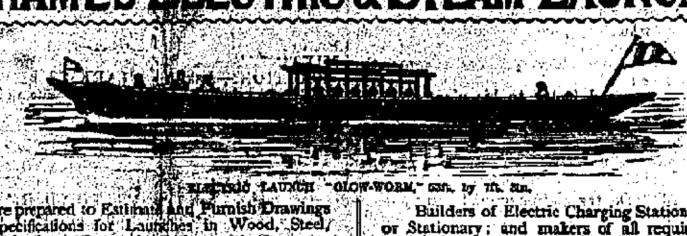

To illustrate the vast scope of the work the following facts are submitted for consideration:-Chalmers Vocabulary contains about 16,000 Is the Finest Mest Flavouring Stock for Soups, Sauces Chinese characters, and Medhurst's English and Chinese Dictionary about 100,000; whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese characters. Again, despite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various appli estions and equivalents of different words which have one general meaning. Of these examples this work contains more than five ti west as many at any other Dictionary hitheric pub-

the work is so complete, that a reference to its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to al Europeans residing in China and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted To parties resident in England and interested in China it cannot but be invaluable occasion-

that comprises upwards of two thousand large 4 Vois: Imperial Quarto, Price, \$20. A Large REDUCTION in PRICE is made to Purchasers of SIX or more Copies.

af follows !-

with the gold from the last crushing. Arrived India. there on the 31st and handed the gold to the local Secretary. Left Singapore on the 10th June, and arrived at Ranb on the 17th, where I found everything had been going well during my absence.

Raub Hole Section -No. 1 Level. The main drive going south has been extended 98 feet since my last report, making the total distance from main crossout 303 feet. I am pleased to say the lode still continues to show good gold in the face of drive where it is fully two feet thick of solid quartz, and with every appearance of continuing. I have commenced to stope north and south from the No. 2 air shaft, and have put up a rise 100 feet south from the main prosecut and started two stopes. Good gold can be seen in all of these workings. I am also stoping on two of the small kinnon. cross leaders, which are showing good gold. The north main east, level has been extended 83 feet, making the total distance from main crossout 150 feet. Two small cross leaders have been cut on the east side of the lode formation and carry gold. We are still driving on the lode formation which consists of a jamble of slate and quartz, about 3-feet thick, between clean black state walls. The formation is well oldest son, Mahmud Khan, will be the future 80 or 100 rushed to the windows and jumped for

with the main north level. This gives good subsistence silowance of R1,000 per month. ventilation to that part of the mine.

ing the total distance from shaft 109 feet. The lance of R1,000 per month is quite unfounded; no. bespattered with blood. ground gone through is hard dry slate. In the such offer has been made or contemplated yet, but last two or three feet, it is beginning to make the rest of the ramour that the Khan will be connected with the calamity was performed by a Hotelscountry. This crosscut is now in beyond where not be allowed to return to Khelat, although Lookwood. As soon as the floors collapsed and I expected to cut the lade, but there are no premature, is very likely to prove correct. signs of it making yet. The lade may have taken a turn and, gone flatter than it shows in the level above, if so, we may have further to go to out it. The water is about the same and is easily kept out. All the machinery is in good order and is working well.

Bukit Kaman Section .- The new engine shaft has been sunk and timbered 14 feet since my last report, making a total depth of 94 feet. The ground is hard blasting slate full of small calcite leaders. I have great difficulty in get ting cooles to work in this shaft as the water is all coming from overhead, which makes it very disagreeable to work in; added to this, the water is so heavily charged with mineral that it takes the skin off and makes the coolles as it they had been scalded some of them are so bad that they are not able to work. I have tried rubbing them with oil, which does a little good, but it sutill bad.

The contractors for breaking quartz from the eastern lode (Bukit Koman) are making good progress with their work, and are raising quartz bank. faster than we can cart it from them. The lode continues about the same size but the prospects are hardly so good Battery.-This is being kept steadily at work

on ore from the Raub hole shaft and Bukit Koman. In future there will be a larger proportion of ore from the Ranb hole working, which eaght to improve the crushing materially. Tintend to · have a rough clean-up on Monday next and will report the result by wire.

General.-We are being favoured with very fine weather for enrrying on mining operations. There is no sickness in the camp. Owing to the great demand for labour in the adjoining States, I find a difficulty in getting coolies. I am hard: ly in want of firewood cutters. (Sd.) WM. BIBBY, Mining Manager.

The Singapore Free Press mys: -The chief point in Mr. Bibby's last monthly reporthe reef in the south end of the 62 ft. lev.l. and two more at the resemble of the south from main cross-out. far reaching nature should not be made matters extra vehicles were brought and the wounded when this means is that instead of turning out of legislation, except on the recommendation of taken to hospitals, which were soon overcrowded to hospitals. stuff from the roof merely on the single south the Department of State." two of the level as driving proceeds, reef stuff will lash sing got out day and night from a total of five working faces instead of one. As less stone will by taken from Bukit Koman the next rough clean up in July will probably concern stone in questions .which the Ranb Hele reef will be in bulk to the other at ff by at least five to one. The percentage of gold in amalgam will rise considerably and the bulk of amalgam in proportion stone will also rise markedly.

THE GERMAN MAIL.

The N. D. L. steamer Braunschweig, with the German mail of the 5th June, arrived on Thurs day. The following telegrams are from the Times of Ceylon : -LORD ROBERTS TAKES HIS SEAT.

LONDON, 20th June. Lord Roberts took his seat in the House of Lords last night for the first time. AN INDIAN PARTY IN THE HOUSE. LONDON, 2 th June.

A movement is on foot to form a group of to be overwhelming. members of the House of Commons who are native standpoint.

LONDON 22nd June. Sir W. Wedderburn held a reception last night on behalf of the British Committee of the Indian National Congress for the purpose of furthering the movement to form a group of thirds of the Senate will vote that way. members of Parliament interested in Indian questions. Three hundred were present, including the Thakere of Gondal, Dadabhai Naorbii. and other members of the House of Commons. THE DROUGHT IN ENGLAND. LONDON, 20th June.

There is an immense glut of meat in the London market, owing to the wholesale killing of cattle and sheep that is going on to avoid the cost of forage, which is so scarce in consequence of the drought. The dearth of water and milk in country districts is causing much distress. The heat all over the country is intense: cause of many deaths from sunstroke

THE ASIAN BRONTIER OF RUSSIA. ST. PETERSBURG, 19th June. A Russian Commission under General Baieff is starting immediately to delimit the Asian customs frontier so as to include Bokhara and the Russian portion of the Pamirs.

TELEGRAMS VIA AMERICA.

The following telegrams are from Tacoma papers brought on by the Northern Pacific steamer Tacoma, which arrived vesterday :-NOT TO REPAY PANAMA ADVANCE .. PARIS, 8th June.

The deputies committee has decided against the repayment by the State or M. Rouvier of the 0,000 france that the Pauama company advanced for secret service CHALLENGED TO PLAY BILLIARDS. LONDON, 8th June.

Roberts, the British billiard champion, has challenged Ives, the American, to another contest of 6,000 or 12,000 points, with the same table and conditions as before except that in case where the balls are jammed they hall be spotted the building." and the player to continue the play from the

MEMBERS OF NEW TORK CHANDER OF COM-MERCE OPPOSE CHINESE EXCLUSION. NEW YORK 8th June. In the thirty fifth annual report of the Chamber of Commerce, the Chinese exclusion not in

thus referred to: "The committee on foreign commerce and tion of Mr. Smith. consul general of Siam (?) at vailing in Congress, and the communication of the Shanghai Chamber of Commerce, protesting against the circulation of anti-foreign publications by the Chinese. "The report of the committee, while fully re-

cognizing the feeling which prevails on the Pacific coast in regard to Chinese immigration, held to the opinion already formulated by the Chamber, that the Chinese exclusion bill is in disregard of treaty obligations and not only dis- added to those who were drawn to the scens by is the information that he is now stoping out creditable to us as a nation, but disadvantageous sympathy or cariosity. In a short time bodies to us as a commercial people. the rest in the south end of the O2 is level of us as a commenced popular this view he has ent upwards and renommend that subjects of this delicate and after considerable delay for want of attention.

> CONGRESSMEN ON THE BILVER LAW. NEW YORK, 8th June. The World has interviewed nearly every memher of Congress by telegraph on the following

> First-Do you, with your present information, favour the repeal of the Sherman law P Second-Do you favour an income tax? Third - Do you favour the repeal of the State

bank tax P The World, in reporting their answers, says: Meny of the answers deviate so far from the plain yes or no and involve so many qualifications that no tabular statement would fairly a represent the opinions they express. The important facts shown are that to the first question, "Do you, with your present information, favour the repeal of the Sherman law " there are 86 representatives who say practically yes,

while only 18 say no. Of the rest, many who qualify their answer so strongly that they cannot fairly be placed in the affirmative column show plainly that their inclimations are in favour of tepsal. The sentiment of the lower house on that question seems

The World has already polled the Senate on sotively interested in Indian questions from the the silver question and on March 6th last, printed a table showing that that body stood for July, and Holhow 5th, had light S.S.E. breeze repeal 39, against repeal 28, non-committal 16. and smooth sea. It will be noticed that several who were noncommittal men then are now in favour of repeal. There seems to be no doubt that nearly two-

VILLAGES DESTROYED BY FLOODS. VIENNA, 9th June. Fifty villages in Galicia and Dakowins have 4th July, had moderate S.W. breeze and fine been partly destroyed by floods. Water in the clear weather throughout, sea smooth. Bristow Orocerife mines has rendered work impossible. Hundreds of scres of crops have been devastated.

JAMES GORDON BENNETT CRITICALLY ILL, THE RESULT OF AN ACCIDENT: Paris, 9th June. James Gordon Bennett, proprietor of the New York Herald, was dangerously injured Wednesday. Bennett fell from a coach The intense heat in England has been the and was so severely hurt that medical attendance was at once required. His condition became rapidly worse and Doctors Robin and Ledentu performed an operation with a view of relieving hm. Bennett's condition is now dangerous; the doctors declare critical.

EDWIN BOOTH'S FUNERAL. NEW YORK. 9th June: The funeral services over the remains of the late Edwin Booth took place this morning at the Hongay 4th July, had strong southerly gales "Little Church Around the Corner," from and high see with heavy squalls to Hainan Shanghai which so many actors have made their last exit. Straits. From Hainan Straits to Hongkong Foodbow The quaint little edifice was growded to its moderate southerly winds and hezy weather. doors with eminent actors, artists, men of letters The Daily News states that cholers has broken and men of affairs who came to pay a final tribute to the famous dead. Everything connected with the funeral was most July-The mortality from cholera at Meson since simpl. The plain caken casket held the rethe 16th instant amounts to eight hundred and | mains, and the only gift of nature on it was a wreath of laurel. The regular Episcopal burial service was read by Bishop Potter, assisted by Dr. Houghton, rector of the church. At the The House of Commons in Committee is still conclusion the body was taken to the Grand Central depot, put on as special train, carrying

THE FALL OF FORD'S OPERA HOUSE, WABHINGTON. WASHINGTON, D. C., 9th June. Ford's opera house, on Tenth street, in which President Lincoln was assessinated, fell in this morning. About 490 government clerks were in

the building at the time and great loss of life is The third floor collapsed through weakness Cocarde claim to ressess, documents involving caused by excavating in the cellar, and in its fall M. Clemencoau and others in treasonable deal- carried down three floors and with them hundreds of clerks. The dead and wounded are being taken out rapidly by firemen and the police. All the ambulances in the city have been

jumped from the third floor. The walls are still standing, but every floor is ments, Roughness and Sourt, do, leaving a An influential deputation of cotton spinners down and every window blown out. The build- clear, spotless Skin and beautiful Complexion. from the North of England waited on Lord ing had been condemned as waste for some time, Enlanding is a necessity for the Skin, especially Kimberley yesterday urging an extension of but santiment kept it unchanged. I tell you I was soured and got A Special Cabinet Council was held on Mon- out just as quick as I could. There were 20

Lord Herschell's report was discussed. The Of the 400 clerks in the building, scarcely. decision of the Government in the matter was one escaped more or less injury. Twenty-eight The Mining Manager's Report on Raub for afterwards telegraphed to Lord Landowne, were taken from the ruins up to 10.15 a.m. The the four weeks ending 23rd June, 1893, runs who, it is expected, will summon his Council in- Emergency hospital is crowded with dead and mediately. The intentions of Government will injured. The injuries, from the very nature, I left Raub for Singapore on the 27th May be announced simultaneously in England and are very severe, consisting of crushed, broken the more and excitement has apread all over the

Every haspital in the city has been called on to care for the wounded. Eight dead bodies have just been taken out of the rules unidentific General Schoffeld has ordered two troops of cavalry from Fort Meyer, just across the river. and two companies of infantry to the soone. The Secretary of the Navy has ordered out all mayal medical officers stationed here and has opened the naval hospital to receive the injured. The commandant at the pavy yard has, been ordered to render all assistance in his power.

Correct accounts as to the cause of the accident are now partially obtainable. The excavations, which were the immediate cause of the collapse, were being made at the instance of the war department for the purpose of putting in an electric light plant. As already stated, the insecurity of the building had been repeatedly reported for a long time past. Whenever a heavily loaded waggon had gone by the building it seemed to sway backwards and forwards. As the clerks realized the situation when the first rumbling warning of approaching collapse There is little doubt left now that the Khan's came, clerks on the third floor to the number of Chian Sugar

bearing country and it may change at any time. that the Khan will not return to Khelat. The north-west side. Many escaped in this way. It is my intention to stop this drive for the pre- Khan's youngest son, Azim Jan, who murdered George M. Arnold, a coloured clerk, appointed Dakin, Cruicks'k & Co sent and open out on one of the cross leaders the Wazir and his son, has been separated from from Virginia, was seen at the third story win. Dairy Farm Co. carrying gold, and test the ground cast of the his father. He is living in tents pitched near dow. He was warned not to jump out, but co. According to a climbed out, and, lowering himself from the 137 feat north of main crosscut and connected rumour Government has offered the Khan a sill, let go. He fell upon the covering at the lower door and slid off into the cobble-stoned Hongkong Electric. alley, striki g on his head, instantly killing H. H. L. Tramways.

One of the brave and most daring incidents H. & W. Dock. water again, which is a good sign of a change of succeeded by his eldest son, Mahmud Khan, and coloured boy, 19 or 20 years of age, named Basil of those at the rear windows wildly climbing out and calling for a d, he climbed up a large telegraph pole as high as the third story and lashed a ladder to the pole, putting the other end in the window. By this means 10 or 15 were as-

risted down the ladder in sufety. There were 475 clerks in the bureau portion, employed in the annex and in the printing office. The question of responsibility for the socident is, of course, already earnostly discussed. Arsistant Secretary Grant was one of the first officials to visit the scene of disaster, and gave orders; by telephone and mounted messengers to officers of the department to rouder all possible aid General Grant said to a reporter, speaking under pressure of great emotion: "I am appalled at

the magnitude of the disaster. It is impossible for me to say anything as to the cause of the accident for I know nothing of the condition of When the crash came there were supposed to be in the building 496 clerks, 18 messengers, 20 labourers, 534 in all. As near as can be smertained the top floor gave way first, carrying the other down with it. Fortunately the entire building did not collapse.

as in that case the less of life would have been much greater. As it was only the front part went down, leaving more than half of the floor the revenue laws reported on the communica. space intact. Because of this many lives were saved. Some of the clerks sitting at their deaks this port, on the auti-Chinese legislation pre- were left sitting on the brink while the desks at which they sat went down. Willing hands went to work as soon as the first shock passed to rescue the dead and dying and wounded from the ruins. The police and soldiers ordered to the scene by General Scho-

field kept the crowds back, so there was no interruption to the work of rescue. News of the disaster flew like wildfire throughout the city and soon anxions relatives were were being brought out so fast that they could extra vehicles were brought and the wounded the second of at the scene of the disaster till a number of |gon, 448 boxes (particulars nuknown), 200 bales medical students appeared on the scene and took | waste silk, 121 packages canes, 4 cases silks, 200
